1. This examination is "open book". You may use your casebook, statutory supplement, and class notes. Use of calculators and cleansed laptops is permitted.

2. Be sure to answer the specific question that is asked. No question calls for a general recitation about a topic from your notes. Information supplied relating to general material from your notes or some unasked question will not increase your score and consumes your time needed to answer the asked questions.

3. If additional facts are necessary to resolve an issue, specify what additional facts you believe to be necessary and why they are significant. You may not make an assumption that changes or contradicts the stated facts. Assume you are in the State of Texas and Texas law applies, unless otherwise clearly denoted.

4. Quality, not quantity, is desired. Think through and briefly outline your answer before you begin to write.

5. Write legibly. Be sure to formulate your answers in complete sentences and paragraphs with proper grammar. Failure to do so will result in an appropriately lower score.

6. Do not seek an interpretation of language in the question from anyone. If you sense ambiguity or typographical error, correct the shortcoming by shaping the question in a reasonable way and by recording your editorial correction in your answer.
