### ESSAY QUESTIONS INSTRUCTIONS

1. This part of the examination consists of three essay questions. The time allocated for this portion of the exam is one (1) hour. Each question has an indication of approximately how much time you should spend on that question. You are not limited to that amount of time, but no additional time will be given to complete the whole examination. **WATCH YOUR TIME!**
2. These questions are not optional; they are a part of the whole examination. Answer the questions and all of their subparts completely and carefully. The essay questions are worth *approximately* one-half of the whole examination grade.
3. No question may be asked during the examination period unless the question deals exclusively with administrative matters.
4. No examination or examination answer may be removed from the testing room without obtaining prior permission from the person administering the test for any reason other than going directly to or from a typing room.
5. Each student must place his or her student examination number on the cover of each Blue Book used, or if typing the exam, on each page of loose pages which are stapled together. No names, Social Security numbers, or other identifying information may appear anywhere on the examination answer.
6. All copies of the examination will be turned in with the answers. Students may leave as soon as the examination is completed. Notes, books, or reference materials of any kind may be used during the examination. No assistance may be given or received from any person.
7. Read the facts carefully. Answer only what is asked, and write your answers legibly.
8. Good luck and Happy Holidays!
